CAVEAT

Dear Readers,

(for both, those I have had the privilege to teach and those who have learned from others)

Please keep the following points in mind while reviewing the lecture notes provided:

1. The notes provided are intended for educational purposes only.
2. Kindly refrain from comparing these notes with any other lecture materials or presentations you may have.
3. While the approach may vary, the core concepts and theories are consistent with those presented by all standard authors.
4. The notes are designed to be concise. Detailed explanations and discussions were covered during the lectures.
5. If you find differences in length or approach compared to other materials, please address them personally.
6. The author does not assume responsibility for any loss, error, or consequence arising from their use.
7. Users are advised to apply their judgment and refer to official sources where necessary.

All the best

VShree

MANAGING EMOTIONS

VShree

- **Emotional Management** is the ability to recognize, understand, and regulate one's own emotions as well as respond appropriately to the emotions of others.
- It's a core component of **Emotional Intelligence (EI)** and plays a vital role in how individuals interact with others and navigate social environments.
- **Techniques for Managing Emotions:**
 - Mindfulness and Meditation – Enhances present-moment awareness.
 - Cognitive Reframing – Changing how you view and respond to emotional situations.
 - Deep Breathing and Relaxation – Reduce stress and emotional reactivity.
 - Journaling – Helps process and understand emotional patterns.
 - Assertive Communication – Expressing feelings constructively without aggression.
 - Seeking Feedback – Helps recognize blind spots in emotional behaviour.

- **Case Study - Promotion Got Missed:**

- Ravi is a 28-year-old software developer working at a mid-sized tech company. He has been with the company for 3 years and was expecting a promotion this year based on his consistent performance and dedication. However, during the annual review, the promotion was given to one of his peers, Ankit, who had joined just a year ago.

- **Emotion Management Strategies Applied:**

- **Self-Reflection:** Ravi took time to reflect and realized his emotional reaction was valid but unproductive.
- **Perspective-Taking:** He tried to see the situation from his manager's and Ankit's points of view.
- **Goal Reframing:** Instead of focusing on the missed promotion, he set new goals for future opportunities.
- **Open Communication:** He expressed his feelings honestly in a follow-up meeting with his manager.
